On the January 20 five packets were counted, sewed and taken to the Post Office and the accused was one of the men who handled the notes on that occasion. On the 28th the Bank received a cable from their agent stating that one of the packages contained nothing but paper and exercise books

The packet was returned to the local branch as it had been received at Singapore. The Post Office was visited, as it was suggested that in all probability some of their employees might have taken the money and that enquiries should be made. As the result of these enquiries the defendant was arrested.

When the package was returned it was scaled. And as far as his information went, it was properly sealed when received at Singapore. The scaling was done by the defendant or the other foki who made up the compradore department staff, which only consisted of those three. The European was always present on such occasions. Undoubtedly these harassments hastened Keats' death, but the disease was there before they came. #### Attack on Kents.

A series of articles on the Cockney school of poetry was begun in 'Blackwood's Magazine' in 1817. These articles were directed mainly, and most venomously against Leigh Hunt. The fourth of these articles, which seems to have appeared in August 1818 fell foul of Kents.

The attack in the Quarterly Review' appeared in Septemer of the follows: same year. The criticism of the 'Quarterly Review,' was not what Shelley calls it in his preface to 'Adonals'-"savage," it is rather contemptuous. , It undoubtedly points out what are real defects in 'Endymion.' The grounds on which one can fairly object to the criticism, are that its tone is purposely ill-natured. Its recognition of merits out of all proportion to its censure of defects; also . that it shows prejudice, in that it material of Bion and Moschus into

#### Meditation on Death.

The 'Adonais' belongs to that class of elegiac poem, which does 'not aim at perpetuating the memory of the dead by a monumental portrait, but rather celebrates the dead through a celebration of grief, and an impassioned meditation upon death. We do not know Keats more truly, when we have read Shelley's poem, but our induced the disease which killed spirits are allowed to contemplate Keats. #### FRANCE'S BRAND NEW PLEA.

Paris, February 10.

Comments in the newspapers to-day emphasise the necessity of time being allowed to probe the British debt proposals before

Le Matin believes that the French Government will not deal LONDON REPRESENTATIVE :- F. S. Wright, 27, Old Broad with the debts proposals without relation to question of France's security. "If France must strive to assure her defence and increase her military strength to equal that of her European Allies," asks the newspaper, "how can she pay annuities to Britain and America?"

L'Ocuvre insists upon account being take of the German pay-

Ere Nouvelle declares that the next Anglo-French conference must discuss the question of security.

Figaro wonders whether Britain is seeking, economic colonial advantages. Le Petit Journal makes a condition regarding the abandonment

of French counter-claims on Britain, and says that the obligation to pay fixed annuities, even if Germany defaults, is inacceptable. L'Echo de Paris asserts that the closest relation must exist between the French and German payments,-Reuter.

Paris, February 9. According to Le Matin, the French Government does not Intend to deal with the problem of inter-Allied debts without any connec-

tion with the problem of security. Indeed, states the paper, if her security was guaranteed, France could work at balancing the Budget and devote sums to funding the debt, which she could not do if obliged to make daily efforts

to increase her military power. Le Petit Parisian understands that the French Government intends to deal with the debt to England together with the debt to

America. Experts are of the opinion that the work and exchange of views by a diplomatic way will last three or four weeks. Direct negotiations could be opened in London in the middle of March and the question of security could also then be taken up.-Havas.

#### OPIUM CONFERENCE FAILURE.

London, February 16.

The Daily Telegraph says in a leader on the withdrawal of the Chinese and Americans from the Geneva Oplum Conference, that it is of the opinion that Mr. Porter's memorandum suggests he had not grasped the plain fact that neither heroin nor cocaine, which drugs are used by ninety-five per cent. of American addicts, are exported from India.

He had not realised that the quarrel of his country was with. China and that she was as powerless to limit opium production as America was powerless to compel her to do so .- Reuter.

#### THE ZINOVIEFF LETTER.

Paris, February 10. The Communist organ, Humanite, describes the letter written by M. Zinovieff to M. Marcel Cachin, directing the French Communion Party to foster an armed revolt of the masses in North Africa, as

"a stupid forgery." Comparing this letter from Zinovieff with his letter published in Britain on the eve of the elections, the journal accuses the anti-Communists of desiring to overthrow the Left Bloc by brandishing a forgery on the eve of the Municipal elections.—Reuter.

#### THE MALABAR HILL OUTRAGE.

Bombay, February 10. The Indore correspondent of The Times of India learns that Sirdar Anandro Phanse, Adjutant-general of the Indore State Forces has been arrested, allegedly in connection with the Mulabar Hill murder.

[The Malabar Hill murder caused a sensation in Bombay. On February 2, a wealthy citizen of Bombay, accompanied by several others, including a titled Indian woman, was motoring in the native quarter of Malabar Hill when the party was shot at from ambush. The citizen and another were killed, while the woman and another member of the party were wounded. Several Indian colchrities have been arrested in connection with the outrage.]
